This is an exceptionally refreshing cider. Apple character is preserved beautifully on the palate, with an understated intensity clearly marking it as fresh pressed juice. Light tannin, reminiscent of apple skin, creates a subtle complexity. A long, clean finish and a lingering tartness makes for easy drinking. The crisp acidity is well balanced with a modest residual sugar content.

Our small family farm in Washington State has been growing the best apples in the world for over 40 years. Generations have been raised under the shade of our family's orchard, big hands and little hands working together come harvest time. Young and old selling apples out of the back of our old pickup truck. The family dog running along rows of trees heavy with fruit. And now crisp, refreshing hard cider handcrafted in our historic apple packing shed using fresh-pressed local apples.
